Acting under the direction of the Insurance Commissioner, you are hereby instructing to file your experience in accordance with the requirements outlined herein.
2. The instructions set forth in this Plan apply to all policies involving Coal Mine classifications. On policies involving both coal mining and commercial classifications, report the experience under coal mining classifications to the Coal Mine Compensation Rating Bureau, and the experience under commercial classifications to the Pennsylvania Compensation Rating Bureau.
3. The instructions set forth in this Plan are applicable to the reporting of all experience for all calendar / accident years for all report levels required to be filed with the Coal Mine Compensation Rating Bureau on or after January 1, 2000.
4. Whenever a change is made in these instructions, the changes will be highlighted. The effective date of the reprint will be shown at the top of the page.
5. Exposure under this Plan always means payroll unless otherwise specified. Payroll and the resulting premium, minimum premium and earned premium are subject to Calendar Year reporting.
6. Losses, of all types including Occupational Disease, are reportable on the Calendar Year basis.

UNIT STATISTICAL PLAN

SECTION I – GENERAL RULES

- A. Scope of Report
A report must be filed for every policy insuring liability under Pennsylvania Workers' Compensation and Occupational Disease Acts, the Federal Mine Safety and Health Act and for every Voluntary Compensation policy providing coverage in Pennsylvania. All reports must be filed with the Coal Mine Compensation Rating Bureau of Pennsylvania, Commerce Building, 300 North Second Street, Suite 403, Harrisburg, PA 17101.
- B. Recording of Statistics
Carriers may use any method for the recording of statistics, including any type of record format convenient to their statistical and account procedures, and codes other than those set forth in this plan, provided only that statistics can be reported by the carrier within the required time frames using the codes and record format provided in this plan, or any other format with the specific approval of the Bureau.
- C. Special Reportings
When a special reporting of individual risk experience is required for experience rating purposes, such reporting will be requested by the Coal Mine Compensation Rating Bureau.
- D. Uncollectible Premiums and Corresponding Losses.
All earned premiums, whether collectible or not, shall be reported. Likewise, the corresponding exposure and losses shall be reported.
- E. Reinsurance
No deductions shall be made from earned premiums and incurred losses for, or on account of, reinsurance ceded. Premiums earned and losses incurred on account of reinsurance received by the reporting carrier shall be excluded from the experience.
- F. Excess Insurance

Experience on excess insurance policies must be excluded from the experience reported under this Plan.

G. Coal Mine Risks

All coal mining reports should be filed with the Coal Mine Compensation Rating Bureau of Pennsylvania, Commerce Building, 300 North Second Street, Suite 403, Harrisburg, PA 17101. On policies involving both coal mining and commercial classifications, report the experience under the coal mining classifications to the Coal Mine Compensation Rating Bureau and the experience under commercial classifications to the Pennsylvania Compensation Rating Bureau.

H. Fine System

The reporting requirements and dates established by this Statistical Plan shall apply to all members of the Bureau, and include all policies providing coverage described by coal mine classifications. Any reports, which do not comply, without exception, shall be subject to the fine system approved by the Pennsylvania Insurance Commissioner. This fine system applies to the unit reports and individual case reports, where required.

The fine system, as approved, will function as follows:

1. On or before March 15 of each year, the Bureau will mail to the carrier of record, a listing of their policies providing coverage during the prior calendar year. The listing shall specify at least the following information: named insured, policy number, and policy dates. Each carrier shall review this listing prior to May 1 and report any differences (deletions or additions) to the Bureau on or before June 1.

On or before March 15 of each year, the Bureau will mail to the carrier of record, a listing of their open traumatic claims for those calendar / accident years where the evaluation update will constitute the 2nd through 10th reports. Each such claim must be updated. If no change occurs from the previously reported values or status, a response to the effect of "No Change" must be filed.

On or before March 15 of each year, the Bureau will mail to the carrier of record, a listing of their pending occupational disease claims, separately for State and Federal coverages, as well as a listing of their occupational disease claims in a payment mode that also include future payments. It will be necessary to update such items as claim status, date of death if applicable, changes in paid amounts, changes in future values and changes in dependency. If no change occurs from the previously reported values or status, a response to the effect of "No Change" must be filed.

2. On the first Wednesday after June 30 of each year, the Bureau will prepare and transmit the first listing indicating the reports due but not yet received. No fine shall be levied as a result of this first listing as its purpose is to notify the carrier of those reports not officially received in a completed fashion. This listing gives all the carriers the opportunity to respond with the appropriate reports and avoid any fines.
3. On the first Wednesday after July 31, a second listing shall be prepared and transmitted indicating those initial reports or corrections which are now classified as overdue. Any reports not received by July 31 will be subject to the fine system.
4. On the first Wednesday after August 31, a third listing shall be prepared and transmitted indicating those reports not received as of August 31. Any report listed as overdue on the third listing shall be subject to the fine system.
5. At the expiration of each month thereafter, the Bureau will provide a listing of reports not received with each report subject to the fine system.

6. In order to avoid a fine, the report must be physically in the possession of the Bureau on or before July 31. Any phone call reports, reports not submitted on the approved Statistical Plan forms, or reports transmitted, but not yet received, will be subject to the fine system.
7. Any listing requiring a fine will be followed by an invoice for payment. The payment of the fine is required within thirty days of the date of the invoice.
8. The fine schedule shall be as follows:

1st Listing as of June 30	No Fines
2nd Listing as of July 31	\$10 per report
3rd Listing as of August 31	\$25 per report
4th and Subsequent Listings	\$50 per report

3. Class Code

Report the code corresponding to the insured's classification determined according to classification rules of the Bureau and published in the Statistical Plan Manual.

4. Governing Classification

The governing classification for each Unit Report is determined on the basis of the payrolls developed in the policy period. The governing classification is defined as that classification, other than the Standard Exception Classifications – Codes 951 and 953 – which carrier the largest amount of payroll.

5. Exposure Amount

- Payrolls reported must be audited payrolls even on minimum premium risks. When a final audit has not been made at the time of filing a report, the policy condition field Estimated Exposures should be marked with the symbol "Y".
- Payrolls must be appropriately separated as of the effective date of the changes whenever there is a change in experience modification.
- The total payroll is to be shown in the appropriate space provided on the line captioned Total Standard Exposures. In cases where more than one unit card is required for filing the experience under a given policy, it is important that the risk totals be shown on the last unit card.
- The payroll exposures for non-ratable (supplemental and catastrophe loadings) portions are not to be included in the Total Standard Exposure.

6. Carrier's Manual Rate

The carrier's manual rates as shown in the compensation policy shall be shown against the classifications and payrolls to which they are applicable. The carrier's manual rate is the Bureau manual loss cost times the carrier's approved multiplier times the experience or

merit mod. The rates actually charged shall be shown against the classifications and exposures to which they are applicable.

7. Premium

a. Premium by Classification. The premium reported by manual classification shall be that obtained by extension of the payroll at the Manual or authorized rate, and shall be posted in the column captioned "Premium". Where a classification is subject to experience rating or merit rating, the "authorized" rate, as calculated in accordance with the provisions of the Experience Rating Plan or Merit Rating Plan must be used in lieu of the Manual rate.

(1) Where the earned premium is less than the minimum premium or is less than a deposit premium which has been retained for any reason, such as inability to obtain a satisfactory audit, the additional premium shall be added to the earned premium classification carrying the largest coal mining payroll. In such cases, the total policy premium shall be marked "M.P." (Minimum Premium) or "D.P." (Deposit Premium) as the case may be, and if the latter, the reason for retaining the deposit premium should be stated on the card.

(2) On minimum premium policies, the minimum premium must correspond to the work actually done during the policy term even though such minimum may differ from that shown on the policy. No classification may be used on the audit of any risk if that classification is a division of payroll representing less than the full-time payroll of one employee.

b. Uncollectible Premiums. All earned premiums, whether collectible or not, shall be reported. Likewise, the corresponding payrolls and losses shall be reported.

c. Miscellaneous Premium. The Pennsylvania Basic Manual rules provide for additional premium charges for additional premium coverages such as Excess Limits under Coverage B, etc. These additional premium charges shall be reported in the column captioned "Premium" under appropriate statistical codes entered in the column captioned "Class Code". The exposure items, if any, shall be entered in the column captioned "Exposure".

For all risks, whether subject to experience rating or not, the following rules apply.

(1) Miscellaneous premium shall be reported on one of the lines designated "D," "E", "F" or "G" if it is subject to experience or merit rating, or if it is required by the Manual rules to be determined after application of the experience modification.

(2) All items of miscellaneous premium which do not fall under item (1) above shall be reported on any of the blank lines above the line designated "A-Total Subject Premium".

d. On multiple-state policies, where the minimum premium has been collected in another state, the earned premium must be computed on the audited Pennsylvania payroll.

e. When a minimum premium policy is cancelled short rate, no short rate penalty premium shall be charged.

f. Premium Totals on Risks Subject to Experience Rating

(1) A - Total Subject Premium. The total of the premium shall be entered in the premium column on the line captioned "A - Total Subject Premium".

(2) B - Experience Rates. If a change in the experience or merit rate occurs subsequent to the inception date of the policy, the payrolls, carrier's manual rates, and corresponding premium shall be split and reported on separate cards. The period covered by each card shall be shown by appropriate notation above the exposure and premium data.

- (3) In those cases where the experience is reported on a split basis due to a change in experience rate and in other cases where more than one unit report card is required for filing the experience under a given policy, the "Risk Totals" shall be shown on the last car of the series.

8. Miscellaneous Premium

- a. Premium Subject to Experience Rating to be reported on any of the blank lines above the line designated "A-Total Premium".

- (1) Premium for Higher Limits under Coverage B to be reported in the aggregate in the "Premium" column.

The Pennsylvania Coal Mine Workers Compensation Manual provides that the premium for limits in excess of the standard limits shall be determined by applying the appropriate factors to the total premium, at the manual rates, any applicable experience or merit rates, and/or retrospective rating. In cases where the reporting of excess premium developed for higher limits on voluntary compensation policies occurs, the Bureau rules state that premium for coverage in excess of standard limits is provided by an appropriate increase in the carrier's rate.

In those cases where the additional premium resulting from the application of the appropriate limit factor to total premium is less than the corresponding minimum premium established by the carrier for such increased limits, the corresponding minimum premium shall be shown.

- (2) If premium collected is partially due to special endorsements (such as that for former self-insured coal mine operators), that portion collected from application of the endorsement will be shown on lines "D", "E", "F", or "G" but will not be included in the total.
- (3) Short Rate Penalty Premium – Where policies are cancelled prior to the normal expiration, the cancellation date shall be entered in the block captioned "Expiration Date" and the symbol "X" entered in the block for condition 93. When a policy is cancelled short rate the payroll and manual premium by classification shall be reported on the basis of the actual exposure. The additional premium resulting from application of the short rate cancellation table to such modified premium extended to full annual basis and reported in the "Premium" column. The "Exposure" and "Manual Rate" columns shall be left blank.

- b. Audit Noncompliance Charge (ANC) – Code 9757

For policies where the carrier has chosen to apply an audit noncompliance charge because the employer would not allow the carrier to examine and audit its records.

The premium for Code 9757 is a flat charge applied after the Employer Assessment (Code 0938).

Note: When the Exposure on the 1st report includes Code 9757, report the Estimated Audit Code as "U" in the applicable Policy Conditions, Estimated Audit Code field.

If subsequent to reporting Statistical Code 9757, and the final policy premium is determined in accordance with the Basic Manual rules, the statistical code and its accompanying charge must be removed. Additionally, the Estimated Audit Code must be changed to "N" and the exposure and premium must reflect the final audit.

- c. Paid Furloughed Employees – Code 1212

Paid furloughed employees means employees who continue to receive payments during a temporary layoff or an involuntary leave and are not performing any work duties for

an employer. Effective March 1, 2020, payments by any employer or any public governmental entity to paid furloughed employees as a result of federal, state, and/or local emergency orders, laws or regulations, issued due to the COVID-19 (coronavirus) pandemic which impact an employer's staffing or business operations must be reported to Statistical Code 1212 – Paid Furloughed Employees. Such payments do not include any appropriated funds or loans received by an employer as authorized by any law or regulation, or public governmental entity, that are used by an employer specifically to retain or hire working employees.

Code 1212 may be used as a Statistical Code to report the payments only. If a carrier is unable to report this experience as a statistical code, please contact the CMCRB to discuss reporting requirements.

Payments reported to Code 1212 are excluded from premium only if the employer keeps separate, accurate and verifiable records.

For any claims attributable to an employee occurring prior to or after a temporary layoff or an involuntary leave, report losses to the classification for work normally performed by the employee that corresponds to the employee's payroll. No claim can be reported to Code 1212 – Paid Furloughed Employees.

The expiration date of this code will be determined at a later date as circumstances warrant in consultation with Pennsylvania regulatory authorities.

9. Correction Reports – Method of Reporting

- a. Errors. Whenever there is an error of any kind on a report submitted to the Bureau, whether such error is discovered by the carrier or by the Bureau, an appropriate revised experience card shall be filed. The appropriate forms to be used for revised reportings are specified in Section II, A. 1. The revised report shall show those items which were previously reported incorrectly and the corresponding revised items. If any of the data previously reported for a particular claim or item of exposure (including such non-monetary items as Class Code of Type of Injury) require correction, the corrected report shall show all of the data previously reported on the line in question as well as all of the data (including those items which do not change) on a correct basis. However, the risk totals as previously reported and as revised are required. If the error involves a change on a case which, in the previous reporting required an individual loss report, a revised individual loss report shall be submitted with the revised risk experience.
- b. Exposure and Premium. Where the exposure previously reported has been changed by reason of an audit where the previous report was estimated, by a reaudit or any other adjustment affecting classifications, exposure or premiums, or by reason of an error discovered within 12 months from the date of submitting the previous report, a corrected report shall be filed showing the amounts previously reported and as revised for the classification where there have been changes. Risk Total Exposure and Risk Total Premium at the bottom of the form, shall be shown as originally reported and as revised.

When such an anticipated recovery becomes known by the carrier, or when a recovery is paid to the carrier, subsequent to the first reporting of the claim, a correction report must be filed with the Coal Mine Compensation Rating Bureau reducing the incurred cost on the claim by the amount of the paid or anticipated recovery. SECTION IV – PART 1 – TRAUMATIC TABLES, continued

The traumatic tables are used only in conjunction with traumatic death or permanent total claims, where the benefits are computed on a life pension basis. The table value is the present value factor for future benefits when applied to the annual indemnity benefit. These factors should not be applied to the medical benefits since the medical benefits are not paid in equal, periodic payments for the lifetime of the claim.

TABLE I, The Surviving Spouse's Pension Table

This table shall be used to compute the reserve for future benefits for a traumatic death claim where lifetime benefits are to be paid to the surviving spouse. The table shall be used as follows:

1. Determine the spouse's age at widowhood by:
 - Step 1. Subtract spouse's date of birth from the date of death. Answer will be in age in years, months and days.
 - Step 2. If the number of whole months produced in Step 1 is seven or more, add one year to the number of years produced in Step 1 to obtain the age at widowhood.
 - Step 3. If the number of whole months produced in Step 1 is six or less, use the number of years produced in Step 1 as the age at widowhood.

Example 1 Date of death – December 10, 1990

Spouse's date of birth – May 25, 1940

- Step 1. 12/10/90 minus 5/25/40 = 50 years, 6 months and 15 days.
- Step 2. 6 months is less than 7 months, therefore go to Step 3.
- Step 3. 6 months is six or less, therefore, use age 50 as spouse's age at widowhood.

Example 2 Date of death – December 10, 1990

Spouse's date of birth – March 25, 1940

- Step 1. 12/10/90 minus 3/25/40 = 50 years, 8 months and 15 days.
- Step 2. 8 months is more than 7 months, therefore, add 1 to 50 and use 51 as the spouse's age at widowhood.

2. Determine the spouse's attained age at first valuation date. The valuation date is the accounting date at which the reserve is being calculated. The first valuation date for traumatic is April 30 following the calendar/accident year in which the date of death occurred.

- Step 1. Subtract spouse's date of birth from the first valuation date.
Answer will be in age in years, months and days.
- Step 2. If the number of whole months produced in Step 1 is seven or more, add one year to the number of years produced in Step 1 to obtain the age at widowhood.
- Step 3. If the number of whole months produced in Step 1 is six or less, use the number of years produced in Step 1 as the age at widowhood.

Example 1 First valuation – April 30, 1991

Spouse's date of birth – May 25, 1940

- Step 1. 4/30/91 minus 5/25/40 = 50 years, 11 months and 5 days.
- Step 2. 11 months is seven or more, therefore, add 1 to 50 and use 51 as the age as of the first valuation.

Example 2 First valuation – April 30, 1991

Spouse's date of birth – March 25, 1940

- Step 1. 4/30/91 minus 3/25/40 = 51 years, 1 months and 5 days.
- Step 2. 1 month is less than 7 months, therefore, go to Step 3.
- Step 3. 1 month is six or less, therefore, use age 51 as spouse's age at widowhood.

If the surviving spouse's age at first valuation is equal to the age at widowhood, the value in the factor column marked (x) corresponding to the age at widowhood is to be used at first report level.

If the surviving spouse's age at first valuation is one greater than the age at widowhood, the value in the factor column marked (x) + 1 corresponding to the age at widowhood is to be used at first report level.

Example 1 Age at widowhood = 50
 Age at first valuation = 51
 The value in the (x) + 1 column corresponding to age at widowhood, 50, is to be used for first valuation.
 The value used is 16.889.

Example 2 Age at widowhood = 51
 Age at first valuation = 51
 The value in the (x) column corresponding to age at widowhood, 51, is to be used for first valuation.
 The value used is 16.982.

3. For second and subsequent valuations, retain the age at widowhood used in the first valuation. Determine the age at the current valuation date in the same manner as to age determination at first valuation date. The age difference shall be calculated to whole years just as in the first valuation. Each successive valuation should add one year to the previous valuation's age determination.
 - A. If the difference in age at current valuation and widowhood is 5 years or less, enter the table at the left hand column, age of widowhood, and proceed to the right to the appropriate column, (x) + N, where N equals the difference between the age at widowhood and the age at valuation.
 - B. If the difference in age at current valuation and widowhood is more than 5 years, enter the table at the right hand column, attained age, using the age at current valuation, and use the factor in the (x) + 5 column corresponding to the age in the right hand column.

Example Age at widowhood = 50
 Age at first valuation = 58
 The value in the (x) + 5 column corresponding to attained age, 58, in the right hand column is to be used for current valuation.
 The value used is 15.106.

TABLE II, Present Value of Remarriage Dowry

This table shall be used in conjunction with Table I for cases of traumatic death claims where benefits are to be paid to a surviving spouse. Table II is used explicitly in valuing the portion of reserves in traumatic death cases for lump sum dowry benefits payable to the surviving spouse upon remarriage.

As prescribed by the Pennsylvania Workers' Compensation Law, the surviving spouse is entitled to one hundred and four weeks of compensation for a remarriage dowry.

Therefore, the calculation for reserves for the remarriage dowry of a surviving spouse is:

104 weeks x weekly benefit x present value factor from Table II.

The age of widowhood and age at valuation date used in Table II shall be identical to those used in application of Table I.

For example, if age at widowhood is 50, and the age at first valuation date is 51, then the value in the (x) + 1 column corresponding to age of widowhood of 50 is to be used for first valuation. The value to be used is 0.0575.

TABLE III, Pension Table (Other Than Surviving Spouse's)

This table shall be used to compute the reserve for future benefits where lifetime benefits are to be paid for a traumatic injury other than to a surviving spouse of a deceased miner.

This table shall apply if the injured miner is permanently and totally disabled, or the miner is deceased and benefits are to be paid to an adult dependent, who is not the deceased miner's spouse.

The present value factor times the annual benefit amount produces the reserve value. To obtain the proper present value factor, the age must first be obtained. Determine the age by:

- Step 1. Subtract the claimant's date of birth from the valuation date. The answer will be in number of years, months and days.
- Step 2. If the number of whole months produced in Step 1 is seven or more, add one year to the number of years produced in Step 1 to obtain the proper age.
- Step 3. If the number of whole months produced in Step 1 is six or less, use the number of years produced in Step 1 as the proper age.

Example 1 Valuation Date – April 30, 1991

Claimant's date of birth – October 2, 1940

- Step 1. 4/30/91 minus 10/2/40 = 50 years, 6 months and 28 days.
- Step 2. 6 months is not seven or more, therefore, go to Step 3.
- Step 3. 6 months is six or less, therefore, use age 50.
Therefore, the proper present value factor for age 50 is 16.992.

Example 2 Valuation Date – April 30, 1991

Claimant's date of birth – May 25, 1940

- Step 1. 4/30/91 minus 5/25/40 = 50 years, 11 months and 5 days.
- Step 2. 11 months is seven or more, therefore, add 1 to 50 years in Step 1 and use 51 as the proper age.
Therefore, the proper present value factor for age 51 is 16.671.

SECTION IV – PART 2 – OCCUPATIONAL DISEASE TABLES

The occupational disease tables are used only in conjunction with the reporting of reserves for occupational disease claims, both state and federal. The table value is the present value factor for future benefits when applied to the annual indemnity benefit.

There are two occupational disease tables: Table IV for male claimants and Table V for female claimants. Table IV is used to compute future benefits for male claimants who have filed either state or federal occupational disease claims. This table is also used to compute benefits for adult male dependents of deceased miners.

Table V is used to compute future benefits for female claimants who have filed state or federal occupational disease claims. This includes female miners or female spouses of male miners who have died as a result of an occupational disease. Table V is also used to compute benefits of adult female dependents of deceased miners.

To compute the reserve, the proper present value factor must be obtained. The factor used corresponds to the claimant's age. Determine the age of the claimant by:

- Step 1. Subtract the date of birth of the claimant from the valuation date. The answer will be the age in years, months and days.
- Step 2. If the number of whole months produced in Step 1 is seven or more, add one year to the number of years produced in Step 1 to obtain the proper age.
- Step 3. If the number of whole months produced in Step 1 is six or less, use the number of years produced in Step 1 as the proper age.

Example 1 Male claimant

Date of birth – January 10, 1941

Valuation date – April 30, 1991

- Step 1. $4/30/91$ minus $1/10/41$ = 50 years, 3 months and 20 days.
- Step 2. 3 months is not seven or more, therefore, go to Step 3.
- Step 3. The number of months produced in Step 1 is six or less, therefore, use the number of years produced in Step 1, 50 years.
Therefore, the present value factor for a 50 year old male claimant is 14.583 as shown in Table IV occupational disease table.

Example 2 Spouse of a deceased male miner.

Surviving Spouse's Date of Birth – May 25, 1940

Valuation date – April 30, 1991

- Step 1. $4/30/91$ minus $5/25/40$ = 50 years, 11 months and 5 days.
- Step 2. Since the number of months produced in Step 1 is seven or more, add 1 to the number of years produced in Step 1, $50 + 1 = 51$.
Therefore, the proper present value factor for this female claimant is 16.324 as shown across from age 51 in Table V occupation disease table.

SECTION V – SPECIAL OCCUPATIONAL DISEASE REPORTING

SPECIAL REQUIREMENTS FOR REPORTING OCCUPATIONAL DISEASE, PAYROLL, PREMIUM AND LOSSES

A. Occupational Disease Payroll and Premium

Payrolls and premiums for Occupational Disease (Pennsylvania/Federal) will be reported on the identical forms shown in Section II, Reporting Requirements, Paragraph A.1, and follow the same instructions as provided for compensation in this Plan.

B. Occupational Disease Losses

All types of Occupational Disease losses (Pennsylvania/Federal) will be reported on an individual claim basis using Form PA/OD-92. If the claimant files both a state and federal claim, each must be separately valued and separately reported. Special instructions as shown below, must be followed in reporting on all occupational disease losses.

The following types of Occupational Disease losses (Pennsylvania/Federal) must be reported by the insurance carriers upon receipt of information relative to initial occupational disease claims or corrections for claims previously filed:

1. Occupational Disease losses **paid partially by carrier.**
2. Occupational Disease losses **pending by carrier.**
3. Occupational Disease losses **paid in full by Commonwealth.**
4. Occupational Disease losses **pending by Commonwealth/Federal.**
5. Occupational Disease **losses previously pending** by either the carrier or the Commonwealth/Federal which have either been **denied, withdrawn or dismissed.**

C. Requirements for Reporting Occupational Disease Losses on Form PA/OD-92, Occupational Disease Claim Form

Individual Claim Reports – form PA/OD-92, **must** be submitted for each individual claim involving either State or Federal O.D. benefits. An individual claim will be reported to the Bureau for state O.D. benefits. Also, an individual claim report for federal benefits shall be filed separately. These individual claim reports, detailed on Form PA/OD-92, must be reported to the Bureau immediately upon receipt of notification to the insurance carrier. In addition, any corrections, additions, updates, or decisions which concern the claim as first reported must be transmitted to the Bureau upon receipt of the new information by the carrier.

D. General Instructions for Reporting Information on Form PA/OD-92

1. All dates reported on this form shall be in month, day, year format, i.e. MM DD YY.
2. All money values, except the weekly wage and weekly benefit, shall be rounded to whole dollars.
3. The weekly benefit for occupational disease claimants must be calculated unless a different amount is adjudicated.
 - a. If the claim is filed with the U.S. Department of Labor as a federal claim, the weekly benefit amounts are based on the table of monthly benefits published by the federal government. This table shows the monthly benefits to be paid, based on the number of dependents. In order to convert the monthly benefit to the weekly benefit, the following is used:
The federal monthly benefit times 12 months equals the annual benefit. This annual benefit amount is then divided by 52 weeks to produce the weekly benefit for federal occupational disease claims.
 - b. If the claim is filed with the Pennsylvania Department of Labor and Industry as a state claim, the weekly benefits are calculated as a percentage of the miner's average weekly

wage. The result is subject to the minimum or maximum state benefit for the year of the last exposure date. The weekly benefit for state claims shall be determined as:

For a disabled miner – 66⅔% of the average weekly wage.

For the widow of a deceased miner – 51% of the average weekly wage.

For a widow with one dependent child – 60% of the average weekly wage.

For a widow with two or more dependent children – 66⅔% of the average weekly wage.

The future benefits must be calculated and reported separately for the widow and each dependent child.

If the miner is deceased and there is no widow but dependent children, the following table is used to calculate weekly benefit:

Children	Percent of Weekly Wage
1 st	32%
2 nd	an additional 10%
3 rd	an additional 10%
4 th	an additional 10%
5 th	an additional 2%
6 th or more	an additional 2⅓%

The weekly benefit for each child is multiplied by the number of weeks from the valuation date until that child turns 18 years of age to compute the future benefits.
